To Whom It May Concern:

It is my pleasure and honor to recommend Jason Thiel and his company to any prospective clients in need of his expertise, work ethic and dedication. Throughout my experience working with Jason while managing the Darien Lake Amphitheater for Live Nation, Jason has always been a constant, reliable contractor who exceeds expectations and show attention to detail, no matter how small the project. I am confident that Jason's exceptional skills, professional experience, and personal qualities make him a powerful asset to any client in need of his assistance.

Jason has demonstrated the pride he has for his work on countless occasions at the Darien Lake Amphitheater. While working within our constricted timelines, which is an unfortunate necessity in the concert industry, Jason has always performed a task or project on time and within budget. He continually involves his clients with every part of each project and easily forecasts any needed changes to an overall project in consideration of safety, efficiency or general improvement. Jason is a hands-on contractor who is dedicated to his craft and will go the extra mile to perform a task or execute a project the right way. We have relied on Jason and his team for our amphitheater tent maintenance, rigging grid maintenance, LED screen installation, general contracting and for capital improvement planning, among other endeavors on a regular basis. We plan to continue our relationship with Jason far into the future as our venue continues to develop with current industry trends in an effort to create the best guest concert experience possible. Jason is one of our strongest partners in helping bring that experience to life for our guests.

If more information is required regarding Jason Thiel's work while contracted with Live Nation at the Darien Lake Amphitheater and our intent to continue working with Jason and his team, please feel free to reach out to our office at 585 599 4707 or via my email at KevinAppler@LiveNation.com. I would be happy to expand on our extreme overall satisfaction in working with Jason Thiel throughout the past several concert seasons at the Darien Lake Amphitheater.

Thank you,

Kevin Appler
